MySQL	Register insert	php/register.php 16-34	

Topic	Features	Code filename - line numbers
Extra Feature	Comment section (only visible after login)	guestbook.html 1-40
Extra Feature	Comment section (only visible after login)	script.js 150-200
Extra Feature	Comment section (only visible after login)	php/comment.php 1-40
Extra Feature	Logout button	alreadylogin.html 20-30
Extra Feature	Logout button	script.js 128-130

We implemented a comment section that is only visible to logged-in users, and a logout button.

- The comment section is shown in guestbook.html and is controlled by login status checked in script.js.
- The backend logic is handled in php/comment.php.
- The logout button is implemented in alreadylogin.html and handled by the logout() function in script.js.
